

The AAS Mobility Grants

The AAS Mobility Grants are offered to build scientific collaboration between African and Indian researchers:

The Africa-India Mobility Fund

A two-year programme designed to provide researchers from Africa and India with opportunities for three-month visits in either direction to explore opportunities for building and strengthening scientific collaboration.

Eligibility

- Nationals of African countries and India
- A non-African investigator who must be resident in Africa and affiliated with an African institution
- Applicants must hold a PhD/MD or equivalent research qualification

Science and Language Mobility Scheme Africa

A five-year programme offering six-month visits to researchers from Anglo and Francophone Africa in either direction to strengthen scientific collaboration while breaking language and cultural barriers.

Snapshot

- Call opens annually
- Applicants must hold a PhD, postdoctoral fellowship or equivalent research qualification
- DELTAS Africa, H3Africa and Institut Pasteur networks researchers are eligible to apply

How you can get involved
